Week 6: 2/18/19

The team and I have completed adjustments on the SSO. I supplied some assistance during this process. We are currently initializing and adapting the online mode for the app. I have created mock ups for a Login event, that records data on successful and unsuccessful login attempts. I intend to continue discussing with my boss on future documents for Offline mode.

Week 8: 3/4/19

Team has completed offline mode. I have since created and collaborated on 2 seperate user epics. I have also attended every single team grooming session, and have discussed with several customers on the Learn app's faults and features.

Week 10: 3/18/19

Team is working on the redesign of the app. Early on in the process. Weekly meetings including plans for future sprints, with an emphasis on the app's design. Still communicating with customers and prioritizing future user stories.

Week 12: 4/1/19

Team is still working on redesign, as well as icons on the app. Prioritizing icons specifically for downloadable content on the app. Have met with several more customers.

4/15/19

Final week of my internship. Prioritized for remaining portion of the app design. Presented my work for the semester to coworkers, discussed the future of the Learn app.
